**Give Them a Chance!**  
That is to say, your lungs. Also all your  
breathing machinery. Very wonderful  
machinery. Not only the larger air-  
passages, but the tiny air sacs of the  
lungs. When these are clogged and choked  
with mucus, which ought not to be there,  
your lungs cannot do their work.  
And what if they do not do their work?  
Oh! it is a terrible thing. You cannot  
breathe. You cannot sleep. You cannot  
eat. You cannot live. This is the danger  
of a cold. It is a danger to the lungs.  
It is a danger to the life. It is a danger  
to the soul. It is a danger to the body.  
It is a danger to the mind. It is a danger  
to the spirit. It is a danger to the whole  
man. It is a danger to the world.  
It is a danger to the future. It is a danger

**Ghost Red Bull.**

That ghost which haunted a New Hampshire seafarer turned out to be a young woman who used to go spooning around there to imagine that she was in a ruined castle on the Rhine. After a bullet fired by a constable whizzed by her ear she imagined that she had better get out and give up.—Detroit Free Press.

**Revenge is Sweet.**

"My dear boy," said a mother to her son as he handed round his plate for more turkey, "this is the fourth time you've been helped."

"I know, mother," replied the boy, "but that turkey pecked me once and I want to get square with him."

He got his turkey.—San Francisco Wasp.

**A Gallant Newspaper.**

It is not kindly suggested that women clerks are not only more honest than the men, but that they are too timid to steal. In that case it is a pity that the same sort of fear doesn't pervade the sterner sex more generally. It is a rather creditable trait.—Boston Herald.

**Be Fair to Yourself.**

There is no harm in a moderate amount of self-congratulation, provided there is good ground for it.

It is not wrong to be pleased with ourselves if the imagination doesn't get the better of the judgment.—San Antonio (Texas) Times.

**Their Pretty Little "Squabble."**

Few are the lady acquaintances who can take a ride on a street car without a pretty little "squabble" about who pays the fare.—Philadelphia Inquirer.

## A PHILANTHROPIC DOMINIE.

He Forced Other People To Be Liberal.

If he had been anybody but a minister of the Gospel, one of the quaint little late Rev. H. G. Storer, who labored for many years in the towns of Washington County, Me., would be called "nervy" in these slippy days.

He was most zealous and successful in works of benevolence, and when he wanted a brother's contribution the brother had to shell out.

He asked nobody to do more than he would do himself, however. He was in the habit of visiting families where he suspected there was destitution, and if he could not understand the state of the larger by making inquiries he would walk into the kitchen or pantry and inspect the flour barrel himself.

Whatever portion of his salary remained after his private expenses were met he distributed among the worthy poor of his charge.

And when he had nothing left of his own to give he would sometimes go to the grocery kept by his wealthiest deacon and order perhaps a barrel of flour sent to a certain family, and when it had been delivered he would say, in his inimitable and unanswerable manner: "Deacon, you just charge that flour to the Lord."—Lewiston Journal.

## ODD MARRIAGE CUSTOM.

One Not without Its Dangers and Inconveniences.

A curious old marriage custom, which is still widely prevalent in Brittany, was recently interpreted in a novel and amusing manner.

According to the custom, the bridegroom, immediately after the priest had wedded the couple, strikes his wife in the face, saying:

"This is how you will fare if you make me angry," and then, kissing her, he says:

"This is how you will fare if you treat me well."

A short time ago a young Breton married a German girl, and after the ceremony was over began at once to practice the first part of the time honored custom.

The bride, who was ignorant of the "inner meaning" of what she considered an insult, turned round on her lord and master and returned the stroke, saying:

"Look here, I do not approve of such behavior," after which the husband is said to have performed the second part of the ceremony with more than usual affection.—Boston Gazette.

## A LITTLE GIRL'S QUAIN LETTER.

The Funny Reason Why It Is Not Longer.

The following was received recently by an eminent Sunday-school worker in New York:

My dear Friend, I don't feel very well to-day. I am very sorry that I am not able to go to Sunday-school, for I love to go and I have a very nice teacher now but I think I will not have her long for she acts as if she was going to get married in a little while. Our Sunday School is going to have a fair on Tuesday Wednesday & Thursday. The children are going to have exercises in which we all take part. I have read twelve chapters in my little testament.

I am very happy because I love the Lord. How are your family? My pen is poor my ink is pale my hand shakes like a monkey's tail. Good by. I must close my letter now.

No Longer Alone in the World.

"Yes," said Smith, "it is a cheerless life to be left alone in the world. I was left an orphan and without a single relation to whom I could look for sympathy in affliction. But the world is brighter now. I have seven sisters."

"Seven sisters?" exclaimed Jones. "I thought you said you hadn't a single relation in the world."

"I hadn't a few years ago, but I have seven sisters now. I've been rejected by seven girls."—Boston Courier.

## Dunning the Doctor.

Office Boy—"Please, sir, here's a man to see you."

Impetuous Doctor—"Healthy man?"

Office Boy—"Very much healthy. Got something in his hand looks like a bill."

Impetuous Doctor (stuck with a brilliant idea)—"Let him come in. I'll give him 50 cents on account; he will faint, and I'll charge him \$2 for reviving him."—Time.

**ALFALFA** or lucerne is probably the oldest forage crop that is now cultivated. History states that it was brought by Darius the Great from Media to Greece, about 500 years before the birth of Christ. The Romans, who were excellent farmers, planted the seed in Italy and in most of the countries they settled and colonized. For centuries it has been the leading forage plant in southern France, Spain and Portugal. The dairy farmers in Switzerland prize it very highly, and the name lucerne is given to the plant in many parts of the globe from the circumstance that the seed was obtained from the canton of Lucerne in Switzerland. The Spaniards, who settled western South America, brought the seed with them and introduced the culture of the plant, which they called the alfalfa, on both sides of the Andes. It was also introduced into Mexico by the Spanish conquerors and extended from them into California, Colorado and Nevada.

"WYOMING," says territorial Engineer Mead, "now has two hundred irrigating ditches. The northern part of the territory, up towards the Yellowstone park, is as fine a farming country as need be seen in any country. What it wants now is people, and when its resources are known it will get them. The cattle boom a few years ago had the tendency to keep settlement out for awhile and retarded its progress by about ten years. But now the doors are opened and the tables are turning. Agriculture and fine stock will take the place of the lowing herds on the thousand hills."

**JOHNSON** grass is being grown on nearly every farm in the Texas Panhandle. We are not surprised to learn this. A single field of Johnson grass will seed a whole county and then the dicens is to pay, especially if the agriculturist would endeavor to raise any other crop. The Texas people may keep their Johnson grass, we don't want any of it, and will stick to our good old crops of alfalfa and timothy.

**A CATTLEMAN** recently prospecting in Kansas to make discoveries in the matter of feeder prospects, found the Kansas farmers to be corn kings with abundance of the fattening cereal, but with no money to purchase stock. The visitor thinks it would be an easy matter for owners of steers to arrange for their feeding.

**The Indication.**  
 NEW YORK, Nov. 6.—What the afternoon papers think of the situation in this city may be seen from the following head lines: World (Tammany Dem.)—"Cleveland being knifed in some districts. Harrison boldly supported by Cavanaugh's people." Commercial Advertiser heading—"Voters flocking to the polls all over the city; indications of a great plurality for Cleveland. Hewitt doing well in spite of trading." Mail and Express (Rep.)—"The Democrats badly scared. News from New York state that it looks like Harrison. Hot fight for Governor."

**Fatal Mining Accident.**  
 ASHLAND CITY, Ala., Nov. 6.—Last Saturday afternoon, while four gold miners were in a pit, thirty-five feet deep, the sides caved in. John Wheeler was taken out dead, James Jones and Frank Smith are dying and William Moore was struck while unseen on the head with a pickaxe and fatally injured.

**Refused Their Liberty.**  
 DUBLIN, Nov. 6.—The Freeman's Journal asserts that all the dynamiters in prison in the United Kingdom have been approached by emissaries of the Times, who informed them that the Government would grant them their liberty if they would give testimony for the Times before the Parnell Commission. The prisoners refused their freedom at such a price.

**A Big Vote in Ohio.**  
 COLUMBUS, O., Nov. 6.—The reports thus far received from the State show that a big vote is being cast early in the day, and promises to be unprecedented. At Urbana, one arrest has been made for illegal voting and two arrests for creating a disturbance.

The New York "Commercial" Says  
 It Looks Like Harrison—  
 A Heavy Vote Polled.

**The Great Contest.**  
 NEW YORK, Nov. 6.—Advises to the Associated Press at 9 o'clock this morning state it was cloudy and warm at Buffalo, Albany, Hudson, Utica, Troy and Newburgh. In this city a light rain is falling, but the chances are it will clear up before noon. There are great crowds at the polls, and everything is progressing quietly. Syracuse reports, at 9 o'clock, a heavy vote has already been cast. Every State will vote for Presidential Electors; every State except Maine, Oregon and Vermont, will elect members of Congress, and each organized Territory, a delegate. State officers and legislatures will be chosen by Colorado, Connecticut, Florida, Illinois, Kansas, Indiana, Massachusetts, Michigan, Minnesota, Nebraska, Missouri, North Carolina, South Carolina, Texas, West Virginia and Wisconsin. California will elect a legislature, Chief Justice and an Associate Judge of the Supreme Court. Iowa and Ohio will elect minor State officers; Nevada, a Supreme Judge, Regents of the University and a legislature; New Hampshire and Tennessee, a Governor and legislature; New Jersey, a legislature; New York, a Governor, Judge of the Court of Appeals and legislature; Pennsylvania, a Supreme Judge, Auditor and legislature. Proposed amendments to their Constitution, or general laws will be voted upon by Georgia, Illinois, Kansas, Nevada, New Hampshire, New York, North Carolina, Virginia and West Virginia.

At Boston, Providence and Hartford, the weather is cloudy, but clearing. At 10:15 A. M. the clouds cleared away and the sun is shining. The crowds around the polls increase, and charges of treachery and "knifing" are being freely made by both Tammany and the County Democracy, but are promptly denied by the leaders of those factions.

The election is being quietly carried on. At 6 o'clock the polling places opened. All the banks, mercantile houses and public offices are closed. To get voters out early, buglers and bell-ringers were sent through the election precincts before the polls opened, to wake people up. In two or three districts, owing to the non-appearance of the election inspectors, the polls were not opened until 8 or 9 o'clock, and it is doubtful whether a full vote can be polled. One of them is a heavy Democratic district.

**2 P. M.**—In the Twenty-third Ward a riot occurred. At 11:30 a crowd of toughs swooped down upon the Tammany booths and attempted to knock them over and destroy the tickets. A number of heads were smashed. The police arrived just in time to prevent serious trouble.

It is reported that Tammany is selling Cleveland in behalf of Grant, Tammany's candidate for Mayor, in some of the voting districts. A committee from the National Democratic headquarters made an investigation, and one of the members afterward reported that the cutting had been stopped. In the 12th Assembly District, the Tammany people claim that the County Democracy are selling out Cleveland for Hewitt, their candidate for Mayor, and are buying the votes of the Hungarians.

**NEWBURGH, N. Y., Nov. 6.**—The vote is heavy and is being cast early. Hill is running ahead of Cleveland.

**11 A. M.**—The weather is now clear. The labor vote is largely Republican here, and the Prohibition vote will be smaller than in five years. Harrison will have four or five hundred majority.

**CUFFALO, Nov. 6.**—Rain began falling, but soon ceased. There is a prospect of light showers during the day. A heavy vote is being cast and the Republicans are very confident of increasing the majority of 1884.

**CINCINNATI, Nov. 6.**—The weather may be classed as rainy throughout the State. It is everywhere reported as cloudy and threatening. Here, heavy showers fell before 10 o'clock, the sky is darkening and overcast, and the voting is progressing very rapidly. Fully half of the entire registered vote were cast before 9 o'clock. In many precincts two-thirds of the vote was cast at that hour.

**LONG ISLAND CITY, Nov. 6.**—A heavy vote is being polled in Queens county.

**CHICAGO, Nov. 6.**—The weather is cloudy, threatening rain, and the vote is light so far. The Signal Service reports cloudy weather throughout Illinois and Indiana.

**JACKSONVILLE, Fla., Nov. 6.**—The weather is cloudy and threatening rain in this State.

**SPRINGFIELD, Nov. 6.**—Cloudy and warm with prospects of clearing.

**MILWAUKEE, Nov. 6.**—The weather is cloudy and a heavy vote.

**OMAHA, Nov. 6.**—The weather throughout the State is fine.

**NEW HAVEN, Conn., Nov. 6.**—The weather all over the State is cloudy and threatening.

**General Harrison at the Polls.**  
**INDIANAPOLIS, Nov. 6.**—The day opened with a cold drizzling rain which at 10 o'clock shows no signs of abatement, and a cold wind is making it the most disagreeable day of the season. The voting is heavy. Toward 11 o'clock the rain ceased and there are signs of clearing, but the atmosphere is damp and the streets sloppy. Reports of many arrests are coming in, both sides swearing out warrants, charging attempts to commit fraud.

The rain has ceased. Two men wearing fall overcoats with collars turned up, walked quietly along 7th street and entered the polling place. It was General Harrison and his son, Russell. The chute being open when the General arrived he walked up to the window and in the quietest possible manner handed in his ballot. As the inspector dropped the paper into the box, he called out the name of "Benjamin Harrison" and the clerk responded "Number 237," signifying the number of the ballot cast up to that hour. As this precinct only cast 302 votes in '84 and 577 in '86, it will be seen that over two thirds of the vote was in today at half-past ten. Russell Harrison did not vote, being a citizen of Montana. After the General had voted the crowd gathered about him and a short season of hand shaking took place. Among those who greeted him were H. D. Pierce, a nephew of the late Vice-President Hendricks and W. O. Devay, a prominent business man and a Democrat. After remaining about twenty minutes and chatting familiarly with a score or more of acquaintances present, the General and his son walked back to the house. The General seemed in excellent spirits. If he felt at all anxious over this eventful day's work, not a shadow of it was manifested on his smiling countenance. No serious disturbances have been reported up to noon, but there came near being a fight at the first precinct of the fourth ward at 11 o'clock, when Chief Deputy Marshal O'Key arrested a colored man named Gus Stewart, charging him with being an illegal voter. This is a strong colored precinct and there was a demand made by one of the colored bystanders to know the grounds of the charge against Stewart. He was supported by several others who demanded to see the warrant, whereupon Chief Marshal O'Key and his six deputies drew their revolvers, and surrounding the prisoner, carried him away.

**1:30 P. M.**—The weather is growing colder. No rain has fallen for nearly two hours, but the sky is leaden. One hundred arrests have been made.

**Trading in New York.**  
**CHICAGO, Nov. 6.**—New York dispatches received at the National Democratic Headquarters from various points in the interior of New York, New Jersey and Connecticut, show a large vote. Everything is progressing to the satisfaction of the Democratic managers. In Brooklyn, as in New York, the attendance at the polls up to nine o'clock is unusually large and Democratic vote very promptly cast. There seems to be a great deal of trading going on. An evening news man visited five polling places on Third Avenue and two on Seventh Avenue. It was found one could get a vote for Harrison at any one of them by giving a vote for either of the Democratic candidates for Mayor, Legislature or for Alderman. One ticket peddler on Third Avenue took the correspondent aside and offered two votes for Harrison if he would cast his vote for Coogan, the labor candidate for Mayor.

**An Unprecedented Vote.**  
**MILWAUKEE, Nov. 6.**—Up to 12:30 this afternoon, 19,000 votes were polled in this city. This surpasses the heaviest previous record at the same hour by 4,000 votes. Hoard, the Republican candidate for Governor, is running ahead of his ticket throughout the State. The Harrison electors are receiving the full Republican votes.

**The Election in Connecticut.**  
**HARTFORD, Nov. 6.**—A very large vote is being polled; some of the wards having half their lists checked by 11 o'clock. The Republicans are voting their full strength early, with a good chance of reducing the usual Democratic majority.

**Murder and Suicide.**  
**NASHVILLE, Nov. 6.**—Sunday night, Allen Taylor, in a jealous fit, murdered his wife and suicided. The bodies were found in the parsonage of the Edgefield Baptist Church. Mrs. Taylor was a cook for the pastor.

**The Parnell "Times" Case.**  
**EDINBURGH, Nov. 6.**—In the case of Parnell against the Times, Judge Kincaid announced his decision on the question of jurisdiction raised by the Times counsel, and ruled that the court had jurisdiction.

**Democratic Calam.**  
**LOUISVILLE, Ky., Nov. 6.**—Rain is falling throughout the State. The returns indicate Democratic gains here and at Bowling Green.

**The Vote at St. Louis.**  
**ST. LOUIS, Nov. 6.**—Weather fair. An immense vote is being polled. At 12:30 nearly two-thirds of the ballots are in the boxes.

**The "Mail and Express" on the Situation.**

**NEW YORK, Nov. 6.**—An extra edition of the Mail and Express (Rep.) sums up the situation as follows: Dispatches from all parts of New York State indicate that a full vote is being cast. The Republicans are gaining ground at almost every point. The Prohibition vote is lighter than in '84, and there is excellent reason for believing that many Prohibitionists and, in part of the State, many Democrats are voting for Warner. Where the liquor dealers are strongest Governor Hill is running ahead of Cleveland, and at most points the Democrats are losing by reason of tariff agitation. The vote is getting out early, and all the indications are cheering to Republicans. There seems but little doubt of marked Republican gains in the Legislature, and the Republican delegation in Congress may be strengthened. In strong Republican counties the interest is intense, and the increase of Republican votes is very marked.

**Bi-Metalism Favored—The Sackville Affair.**

**LONDON, Nov. 6.**—The Currency Commission made its report, and advocates the co-operation of England with the United States, Germany and the Latin Union to secure the restriction of bi-metalism. Parliament reassembled to-day. In the House of Lords, Salisbury stated, in response to an inquiry, that the papers relating to the Sackville affair will be issued by the Government to-morrow. In the meantime would reserve a statement in regard to the affair.

**Look of Voting Places.**

**KANSAS CITY, Nov. 6—10:30.**—Cold and cloudy. A very heavy vote is being polled. The scarcity of voting places will cause many to lose their votes by being crowded out. Advances from Eastern Kansas and Western Missouri show a heavy vote.

**A Clear Day in Pennsylvania.**

**PHILADELPHIA, Nov. 6.**—The day opened foggy and misty in this city, but by 10 o'clock it cleared. There are indications of clear weather throughout the State, with a prospect of a heavy vote.

**A Heavy Vote.**

**DETROIT, Nov. 6.**—The votes so far as received from the interior of Michigan up to 11 A. M. show that cloudy weather with local rains prevail. In this city the weather is cool and threatening, but no rain has yet fallen. A heavy vote is being polled and good order main land.

**A B's Vote at New Haven.**

**NEW HAVEN, Nov. 6.**—The weather is damp, but a big vote is being polled. Cleveland seems to be polling the usual Democratic majority. Morris (Dem.), for Governor, will run ahead of his ticket by 1,000 votes.

**A Silent Vote.**

**JERSEY CITY, Nov. 6.**—The votes are being polled rapidly. The silent vote confuses the calculations, as it points to a change of feeling, and some scratching. The Prohibitionists, for the first time, have made an open fight.

**Obliged to Move.**

**HAVENHILL, Mass., Nov. 6.**—The City Hall is burning, the Congregational Church is burning, and other buildings are threatened. Voting was in progress in the City Hall when the fire broke out. The ballot box was saved.

**Colored Voters Arrested.**

**BAITMORE, Nov. 6.**—The weather is warm and clear. Many arrests for illegal registration and fraudulent voting, mostly colored men. The indications show an unexpectedly large vote.

**News from Maine.**

**PORTLAND, Nov. 6.**—Dispatches from various points in the State indicate a very quiet election, with a falling off of about one-third in the general vote as compared with the September election.

**Party Lines Strictly Adhered to.**

**CHATTANOOGA, Nov. 6.**—Weather cloudy. Full vote is being cast. The party lines are strictly adhered to. Limited polling precincts create a fear that all the votes cannot be deposited.

**Proceeding Quietly.**

**RALEIGH, N. C., Nov. 6.**—The weather is fair and the voting is going on quietly throughout the State. The probable vote very heavy.

**Gladstone's Attitude.**

**BIRMINGHAM, Nov. 6.**—In a speech to-day Gladstone said he considered it his duty to remain in public life until the Irish question is definitely settled.

**Another Defiant Emigrant.**

**LAKOTA, Dakota, Nov. 6.**—Will Parker, Register of Deeds, is reported to have gone to Winnipeg; his accounts are said to be \$10,000 short.

**Clear Weather and a Heavy Vote.**

**RICHMOND, Va., Nov. 6.**—The reports from various parts of the State show the weather clear and that a heavy vote is being polled.

**Running Ahead.**

**ROCHESTER, N. Y., Nov. 6.**—The weather is cloudy and voting is heavy. Governor Hill is running ahead of his ticket all over the city.

**A Light Vote.**

**MONTGOMERY, Ala., Nov. 6.**—The weather is clear and a moderate vote only is being cast.

**The "Old Woman" Votes.**

**COLUMBUS, Nov. 6.**—At half-past 1 this afternoon Judge Thurman and his son, Allen W. Thurman, cast their ballots for the Democratic ticket.

**Heavy Gales on the British Coast.**

**LONDON, Nov. 6.**—Heavy gales prevail on the British coast. Several vessels have been wrecked, but no lives reported lost.

**Many Ladies Voting.**

**MINNEAPOLIS, Nov. 6.**—It is clear, crisp and cool. The vote of this city is very large, many ladies voting for the school board.

**PACIFIC COAST.**

**They Voted Early.**

**SAN FRANCISCO, Nov. 7.**—The voting in this city commenced very early and a large vote has been polled than was ever known here before. It is estimated that three-fourths of the entire registered vote of the city had been polled before noon. There have been eight arrests altogether, for illegal voting. A colored man named Ives was shot in the leg on Broadway street by a man named Fred Simmons. The latter was arrested.

**LOS ANGELES, Nov. 6.**—The weather is fine and a full vote is being polled; much of it was cast early.

**Condition of Things in California.**

**SAN FRANCISCO, Nov. 6—9 A. M.**—The weather is perfectly clear here. The telegraphic reports show that a drizzling rain is falling at New York and Chicago. The weather is cold and the rain threatens to continue at both places. Snow is falling at Omaha, Cheyenne, Ogden and Helena.

**SAN FRANCISCO, Nov. 6.**—Five arrests were made before nine o'clock on charges of illegal voting.

**Everything Quiet in Sacramento.**

**SACRAMENTO, Nov. 6.**—The election is proceeding quietly. The weather was pleasant up to noon. The vote is light, the heavy voting usually being done in the afternoon.

**Notice of Meeting.**

Terry-cloth, caaton-flannel, linen, gileas and caunas of all kinds at Miss Gibbs'.

Examine C. A. Thurston's new stock of the best stationery and blank books.

By buying your meats of John Fraser you will never have any use for a dentist.

Go to the Granite Saloon for a glass of George Becker's Pacific beer, the best in the town.

C. J. Brookins' iron frame pianos and organs are the only instruments that will stand this dry climate.

Save time, money and shoe-leather by going to J. J. Becker's Chicago Saloon for a schooner of beer and a hot lunch.

John Wieland showed that he had a business head on him when he engaged J. B. Francis to start his Reno agency for his peerless beer.

A Needed Improvement.

It is understood that under a promise that the Commissioners will build a plank sidewalk on Center street as far North as 7th street, the University Regents have commenced the construction of a good walk from that point to the University grounds. This is a commendable improvement which will be greatly appreciated by the one hundred students of the above institution.

A Prosperous Country.

The commerce of Puget Sound, for the year 1888, will show a much larger total than in any previous year. Certain railroad facilities, which have lately become available, promise to make Tacoma an important shipping point for a large quantity of Oregon wheat. The advantage of loading there, as against Portland, has made the change, and it promises to be permanent and of growing importance.

Stock Shipments.

Nine cars of cattle shipped at Deewave by Mrs. Winzell and consigned to Miller & Lax, California, were unloaded here yesterday and loaded this morning.

Eleven cars of beef cattle loaded at Winnemucca by M. Brandenstein & Co. were unloaded here to-day and will be forwarded to-night.

The Mill-Dam Gene.

The Boom mill dam went out yesterday morning, and the Truckee raised several inches. The damage is great, but how much is not known at this writing, or whether the dam can be got in place in time for the ice season.

Justifiable Killing.

Patrick Dolan was shot and killed by his son Edward, at Gold Run, Cal., Saturday evening. Edward was protecting his mother, who was being beaten by his father.

## PERSONAL.

Miss Helen Martin of Carson, is visiting Reno friends.

V. H. Pease, the mail contractor, was in town yesterday.

Hon. C. S. Young returned from California this morning.

Alvaro Evans and wife returned this morning from San Francisco.

Frank Lee who has been very ill with typhoid fever is slowly recovering.

John, W. Slavan, the popular cattle buyer for Grayson, Owen & Co., went below last night.

James H. Kinkead came down from Virginia last night to cast his ballot for protection to-day.

Attorney General Alexander and Brewster Coffin returned last evening from Humboldt county.

W. E. Lemmon was in last night from Long Valley. He reports everything quiet in his section.

D. W. Balch, the assayer, and Frank Golden of Virginia City, returned below this morning.

Ex-Sheriff A. K. Lamb came over from the State Prison last evening to cast a straight Republican vote to-day.

W. H. McGinnis, Captain of the Guard at the Nevada State Prison, came down from the Capital to vote for Harrison and Morton to-day.

Dr. J. J. Leek leaves for San Francisco to-night. He will be absent about two weeks, and is undecided as to whether he will stop here on his return or not.

E. D. Harrison, a cousin of General Harrison, and general traveling passenger agent for the Denver and Rio Grande Railroad Co., was a passenger for California last night. He traveled over 900 miles to cast a ballot for his illustrious cousin.

BREVITIES.

Local and General Intelligence.

The beef market is very quiet. Not much doing in this part of the State now.

Thirty-two bars of Comstock bullion went below last night per Wells, Fargo & Co.

Old lady (in shoe store)—Have you felt slippers? Small boy (solemnly)—Yes ma'am, many a time.

No matter how much a candidate may itch for office, he don't like to be scratched on election day.

Passenger trains, Nos. 1 and 4, met here this morning, the latter being eight and a half hours late.

All things being for the best is the probable reason why the really hard-up man never gets anything.

The Virginia Enterprise issued a paper yesterday, the first Monday issue of that paper for many years—it was a daisy.

Two cars of lambs were shipped to-day by George Clute, of Spanish Spring Valley, consigned to J. G. Johnson & Son, San Francisco.

Pat McCann had an audience at the corner of Second and Virginia streets late this afternoon that he was entertaining with "Cleveland and free trade."

J. N. Wallace deals largely in country produce, and his stock of family groceries cannot be excelled in any store in town. Give him a call and be convinced.

Hayes & Co., the Oakland butchers, shipped in from the eastern part of the State to-day ten cars of beef steers, which they will feed at the ranch of P. J. Kelly on the Meadows.

Frank Redding, coachman at St. Mary's Hospital, Virginia City, was last Sunday thrown from a carriage and suffered a fracture of the skull, from which he will probably die.

"A weapon that falls as silent as the snowflake upon the sod, But executes a freeman's will, As the lightning does the will of God; And from its force no door nor locks Can shield you: tis the ballot box."

Large quantities of freight is being shipped to Surprise Valley, via the N. C. & O. railroad and the new wagon road, via Secret Canyon, Spanish Springs, Madeline Plains and Tule-dad.

Censuring Jail Birds.

The recent jail break at Spokane Falls, W. T., was the result of a plot between the prisoners and their friends on the outside. The Sheriff was persuaded to appoint one of their men guard, and a boy committed a trifling robbery so as to get in jail with the tools to cut the way out and furnish the details of the plan.

Forced to Resign.

The two British subjects in the employ of the postmaster at San Diego—Joseph Coulthurst and his brother—have been forced by the strong public feeling displayed against unnaturalized people holding Government offices, to resign.

Notice.

All persons who may be affected with heart or lung troubles can have their teeth extracted by the use of Dr. Leek's local anesthetic, with but very little pain and no danger to the person.

A local anesthetic will be administered at either of our six California offices—Dr. I. G. Leek, 742½ Market street, San Francisco; Dr. G. W. Leek, No. 6 O'Farrell street, San Francisco; also at the following places: San Jose, Santa Cruz, Watsonville and Salinas City.

Dr. J. J. Leek can be found for the present at the Golden Eagle Hotel, Reno, rooms 25 and 26.

I will remain until Tuesday, November 6th, then make a short visit to San Francisco, and return to Eureka for the winter. Prices reasonable; consultation free.—Dr. J. J. LECK, oct31-1w.

Improving His Herd.

Dr. W. H. Patterson, of Cedarville, Modoc Co., Cal., has purchased of Walter C. Weedon, the Galloway cattleman, a choice pure bred two-year-old Galloway bull, a son of the imported bull "Galloway King 1779," which he intends to cross on a select herd of Shorthorn cows, at his Surprise Valley ranch. Joe Parman started with the animal on his long trip across the country and will get him there in good shape.

Stockmen Attention.

If you are needing a good breeding bull call on Walter C. Weedon, Depot Hotel, Reno, who has five Galloways for sale at reasonable prices, and will take pleasure in showing them to you.

## CALIFORNIA POLITICS.

Party Combinations in San Francisco—Colonel Rob Taylor's Candidacy—Judge Henry's Good Prospects—Home Nevadaans Not Appreciated.

I am glad to learn from Reno that the schisms which formerly existed in the Republican party have been healed, and that Washoe county now promises to be the banner county of the State, as it ought to be. Of course, there will be no trouble about the head of the ticket, with such men as Harrison and Morton; and, of course, Bartine and Murphy will hold their full party strength. You have three good men for Regents of the University, and, as Reno is vitally interested in the success of that institution, there can be no doubt as to how Washoe will stand in regard to them. You Washoe county people frequently thought you had a hard time, because there were several factions in your community, some of your citizens even trying to break up both of the big parties; but if you want to see a free-for-all catch-as-catch-can knock-down and drag-out scramble, you ought to look at San Francisco politics for awhile. Here we have the regular Republican and Democratic parties, of course. After these come the Independent Republicans, Independent Democrats, the Union Labor party, the

LABOR UNION PARTY.

The Workingmen's party, the Anti-Boss party, the American party, the Independent Foreign Democratic party, of which Dr. O'Donnell is the head—a very strong organization, by the way—the Citizens' Non-Partisan party, another important factor, and at least a dozen other divisions and subdivisions which I cannot recall just now. Just think of that for a few minutes and see how it will make your head swim. Remember, too, that each ballot has over 150 names on it, and they try to figure out how long it will take to count them. The voting precincts are very small, but it will be three days before the result in the city will be known.

Only a few ex-Nevada people are running for office in California this year. Prominent among them are Judge W. H. Heffley, formerly Chief Justice of the Nevada Supreme Court, and Colonel R. H. Taylor, for years a leading member of the Storey county bar in the earlier and brighter days of the Comstock. All the papers speak well of

JUDGE HEFFLEY.

He will be elected Chief Justice of the California Supreme Court by a big majority. Colonel Taylor has a harder fight. He is running for Superior Judge in this district. There are four Judges to be elected, and in the turmoil of all this firing and cross firing it is hard to tell who will come out ahead at the end of the shuffle.

Judge Rising is in the city, but I haven't had a chance to see him yet. The Examiner, which is recognized as the leading Democratic paper of California, a few days ago had the following:

The sleek, round form of Judge Richard Rising of Nevada has been seen about the Palace rotunda during the past few days. The Judge comes down from the sage-brush about twice a year to renew his acquaintance with civilization, revel in fog and sunshine and have a good time generally. This time he brings with him his son, a stalwart young officer of the navy. There are two objects that will perhaps remain rooted in Nevada till the end of time. They are Mount Davidson and Judge Rising. The former will continue to frown upon the plains below and the Judge will continue to frown from the bench. The one as secure upon its foundation as the other, and it is well that it is so, for there can be no reasonable human desire to distrust either the mountain or the Judge."

COLONEL R. H. TAYLOR.

Who has been District Attorney for two years, was not renominated. I rather take it this is a compliment to the Colonel, as it may be interpreted as meaning that he refused to serve Boss Buckley as a satisfactory way. R. B. Mitchell, formerly of Virginia City, has had his eyes on the District Attorney's chair ever since he came to San Francisco, but up to the present time he has had no other portion of his anatomy on that piece of furniture. Mr. Mitchell is growing in avoirdupois. He expects soon to rival Uncle George Tuffy.

After talking with men from all over the State I have come to the conclusion that California will go for Harrison by at least 18,000 majority. Many claim the State by a much larger figure. Democrats once in a while make a bluff of claiming the State, but they will not bet on it. The

DEMOCRATIC MANAGERS.

Are fairly smothered with greenbacks, while the Republicans are short. They have a hard time paying postage on their campaign documents. If it were not for the fact that the natural strength of the protection sentiment is enough to carry the State, there might be cause for discouragement. Everybody expects Nevada to go at least 1,500 for Harrison. That is about the natural Republican majority. To be sure that was to a certain extent reversed when Hon. James G. Fair ran for Senator eight years ago, but there is an easy explanation for that. The Senator's friends say that his personal popularity carried the rest of the ticket, as seaweed is borne on the crest of a tidal wave.

WELLS DEURY.

The Stanford University.

About 250 men are at present at work on the Leland Stanford Jr. University, and the buildings are fast assuming shape. The buildings will be roofed with tiles, which are manufactured in Ohio. About 250,000 pieces have already been received, and several carloads are en route. Work shortly be commenced on the school buildings.

Walter C. Weedon, who is staying at the Depot Hotel, has a few more of those Galloway cattle left, and will take pleasure in showing them to intending purchasers.

## HOW TO PACK BUTTER.

So That it will Never Become Rancid.

Last season we packed our surplus butter on the following plan and found when we sold in December, when the butter was unpacked for sale, it came out just as fresh and well tasted as it was when packed, says the Dairyman. We adopted the following method:

Bought the pork barrels, scalded them out thoroughly with boiling water three different times, the last time covered the barrel with a cloth to keep in the steam. Let stand until the water cools, then rinse out the barrel with cold water, and the barrel is ready for use. We made a strong brine, by boiling, that would float an egg, skimmed off any scum that was on top, and let stand over night. In the morning the brine will be as clear as crystal. Butter was salted in the usual way, one ounce to the pound. Made into five to six-pound rolls, wrapped carefully up in cheese cloth and tied with cotton wrapping twine to keep the cloth in place. The rolls are then placed into the barrels and covered with the brine and kept covered. The air is not allowed to come in contact with it again until unpacked. And my opinion is, right here is where the secret lays in keeping the air excluded, no food odors can get to it. Some might think the butter would get too salty in such strong brine. Not one bit of danger, if the butter has been properly handled before going into the barrels. We make our butter on the granular plan and press it solidly together. As I informed you in my letter last season, we packed several barrels in this way, and it was in the brine four or five months, and not a fault found to a pound of it. I have no doubt that butter packed in this way can be shipped to any market in the United States or Europe, if ordinary care is taken not to let it lie outside exposed to the air. Butter can be packed in this way in firkins or in any vessel that will hold the brine.

Treatment of Convicts.

Charles D. Warner writes as follows: A convict should be sent to prison and hard labor not for a definite arbitrary term, but until he is so changed in his habits that he is fit to take his place in the world again. If that were done, and society understood it, a released man would not find the doors of employment and sympathy shut against him as he does now.

There would come out with a certificate of integrity, industry and intelligence. If he is so debased as not to be able to be changed in his habits and practices, by any discipline, however long continued, then the prison is the place for him for life. We shall do little to reduce the number of criminal class till we come to this conclusion.

A Valuable Improvement.

Louis Dean is building a reservoir for his company on Squaw Creek above Round Hole that will be of great value. He is expending from \$10,000 to \$15,000 on the enterprise. He will raise the water about 30 feet, and that will extend back over a large area and reclaim a large body of now valueless land. Mr. Dean will be able to cut untold quantities of hay from the land covered by his reservoir and it will increase the value of his property one hundred fold.

Delicate Mechanism Disordered and Righted.

The most delicate and intricate piece of mechanism in the human structure is the nerves. As the telegraphic wires transmit the electric forces, so do these sensation, the focal point being the brain, where sensation centers. Mental anxiety weakens this mechanism, sudden shocks paralyze it, but dyspepsia is its most obdurate foe. This foe is utterly defeated by the irresistible tonic, Hostetter's Stomach Bitters, as the cessation of the disorder in the stomach is reflected in the brain and nerves by restored tranquility and tranquility of the nerves implies, in this instance, renewed vigor. A distinguished medical authority says: "The victim of nervous dyspepsia, who finds chills at night and broods by day necessities, should know that a cure may be sought among agencies which strengthen the nerves," and assuredly Hostetter's Stomach Bitters has proved to be the best of these. Malarial complaints, constipation, biliousness, inactivity of the kidneys and rheumatism often involve nervous troubles by sympathy, and all are eradicated by the Bitters.

Nipped in the Bud.

Is it not better to nip consumption, the greatest scourge of humanity, in the bud, than to try and stay its progress on the brink of the grave. A few doses of California's most useful product, Santa Alb's, the king of consumption, will relieve, and a thorough treatment will cure. Nasal catarrh, too often the forerunner of consumption, can be cured by California Catarrh-Cure. These remedies are sold and fully warranted by Osburn & Spence, makers at \$1, or three for \$2.50.

Reward.

The Washoe County Republican Central Committee offer a reward of \$25 for the arrest and conviction of any person who votes illegally in any precinct of the above named county on the 6th day of November, 1888.
